

erazzr® erasing block can remove years of grime from PVC-u window frames without damaging the surface

You have discovered the most efficient, longest lasting, cost effective, chemical and detergent free surface renovating system of its type.

Amazingly the erazzr® erasing block is simply activated by the power of water; without damaging the surface it safely erases stubborn grime, scuff marks, pollution and algae stains from..

- PVC-u and plastic coated aluminium window frames and doors
- Painted wood window frames and doors
- Caravan and portable home bodywork
- PVC-u and plastic coated conservatory and skylight frames
- Window glass and polycarbonate sheet
- Plastic garden and patio furniture
- Most surfaces in bathrooms, shower rooms and toilets
- Kitchen surfaces; sinks, tiles cupboard and drawer fronts
- Solar panels....

....PLUS MANY MORE USES

The **erazzr®** erasing block provides a new cost effective method of renovating most grimy, stained or marked surfaces around the home. It is simply activated by the best cleanser known to man.. H2O – no abrasive powders, detergents or chemical cleaners are incorporated or necessary. Extensive trials have shown an erazzr performs better and lasts much longer than similar products currently offered by other suppliers.

erazzr and its associated uses have been specifically developed for renovating grubby PVC-u window frames, plastic coated aluminium window, conservatory frames and plastic garden furniture, although it has many other uses in the home. You will also find it's brilliant at removing dirt from window glass, stubborn tide marks from baths and basins, erasing grime from telephones and computer keyboards; erazzr will even remove permanent marker ink from many surfaces.

An **erazzr** block looks like a sponge but it should not be used like one. It works like a large pencil rubber. In combination with water, it literally erases - rubs away grime and marks.

Examples of how an erazzr can be used

BEFORE AFTER

Renovated white PVC-u window frame
To achieve the scratch free result shown, all you do is hose down the PVC-u window frame with clean water, then holding the **erazzr** in its holder gently rub the wet window frame with the block's 60mm x 60mm face whilst running a trickle of water from the hose over the work area.
There is no need to saturate the whole **erazzr** block. Finally hose down the PVC-u surfaces.

Painted wood window frame
To achieve the result shown, all you do is wet down the window frame with a sprayer filled with clean warm water, then holding the **erazzr** in its holder gently rub the wet window frame with the block's 60mm x 60mm face. Continue to spray water over the work area as you rub with the **erazzr**.
There is no need to saturate the whole **erazzr** block. Finally rinse off the dirt and dry the frame with a cloth.

Removing grime from a stainless steel sink
With the plug in, add about 10mm of warm water to the sink. Grip the **erazzr** holder lightly, wet the blocks 60mm x 60mm face, and gently rub off the grime. Keep wetting the block's rubbing face as you work. There is no need to saturate the whole **erazzr** block. Finally rinse out the sink with clean water and dry.

The cost effective erazzr® standard pack - eight erasing blocks and one holder.. Delivered to your door

erazzr® erasing blocks come in a pack measuring 240mm x 200mm x 180mm, 184 grams in weight. The pack contains twenty four 60mm x 60mm x 100mm blocks including three erazzr holders, providing you with exceptional value for money and the most efficient system of its type.

Additional holders are also offered in the nbs-general products on-line shop.

Please note, although the erazzr looks like a sponge it should not be used like one. An erazzr works like a large pencil rubber, in combination with water, it literally erases - rubs away grime and grubby marks. Like a pencil rubber it too wears away with use. Different methods are employed each tailored to give the best results. The more common methods are described in the nbs instructions PDF data sheet.

The erazzr® pack
