

PAVERSLOT™ Drainage Channel

PP Slotted surface water drainage channels for your patio, paths and driveway

Introduction

PAVERSLOT™, is a discreet slotted drainage channel competitively priced for domestic applications. Engineered in UV resistant polypropylene (PP), it is perfect for driveways, garage access drainage, patios, footpaths, landscaped areas and roof gardens. As there are no gratings or metal parts, the system is also ideal for outdoor soft impact play areas.

PAVERSLOT is compatible with most surfaces as its vertical side's enable slabs up to 50mm thick to be laid right up to the drainage slot. Each channel, including the slotted component, weights only 450 grams so they are easily transported and handled on site.

An optional accessory pack containing two end caps and a vertical 70mm union outlet completes the system. Article No: 44100

PAVERSLOT™ slotted drainage channel					
Length per piece mm*	Width mm	Overall height mm	Height of slot mm**	Weight kg	Article No
1000	135	155	60	1.5	44150
<p>* Minimum order three lengths (3.0m). Only available in Black</p> <p>** Allows for paving slabs up to 50mm thick</p>
