

TOP GRATE Drainage Channel

PP Surface water drainage channel with grate for your driveway

Introduction

TOP GRATE, is an effective drainage channel competitively priced for domestic applications. Engineered in Black UV resistant polypropylene (PP), it can take the weight of a car so it s perfect for garage access drainage, driveways, patios, footpaths, landscaped areas and roof gardens. As there are no metal parts, the system is also ideal for outdoor soft impact play areas.

TOP GRATE is compatible with most surfaces, slabs and blocks can be laid right up to the drainage channel. Each channel, including the grate component, weights only 450 grams so they are easily transported and handled on site.

An accessory pack containing two end caps and a vertical 70mm union outlet completes the system. Article No: 44100
