

Pivoting Roof Windows

Benefits of pivoting roof windows with PVC frames and sealed double glazed units

More light makes more of your home

More than ever before, you may be looking to maximise available space in your home. Often there is more room than may be obvious - it's simply a case of optimising what already exists. Previously unused areas in lofts or under sloping roofs can be opened up to provide useful living accommodation, simply by introducing natural light. This range of top quality, easy-to install roof windows provides you with a practical and durable solution for most kinds of roof construction.

Low maintenance pivoting roof window

Advantages at-a-glance:

- PVC construction for maintenance free lifespan: no need for painting.
- Quick, easy installation, flashing included in the price.
- High insulation level for energy efficiency - sealed glazed units.
- Available in SIX popular standard market sizes, so replacing existing roof windows presents no problems.
- Fully compatible with most currently available window decoration systems and accessories.
- Optional self-cleaning glass units.
- Integrated roller blinds offered.

Quality you can trust

Ubbink, is one of Europe's leading manufacturers of roofing products.

The introduction of this outstanding new line of high quality roof windows in a wide range of popular sizes are designed to suit virtually any pitched roof application.

Manufactured from high-quality PVC reinforced with a steel core, the windows are totally maintenance-free – a big advantage for today's busy home owner. They are also extremely easy to install, making them a popular choice with contractors.

All windows in the range are constructed exclusively from high quality Saint-Gobain glass and carry a twenty year guarantee on the glazing and a ten year guarantee on the frame. As you'd expect, these roof windows offer high levels of insulation to meet today's demands for energy efficient homes.

Options include **Bioclean®** self cleaning glass – a particularly useful feature for roof windows placed in difficult-to-access areas. The range is complemented by integrated accessories including air permeable under-felt collars and roller blinds in light grey or beige. Refer nbs Technical Data Sheet for more information on accessories.
