

# Pivoting Roof Windows

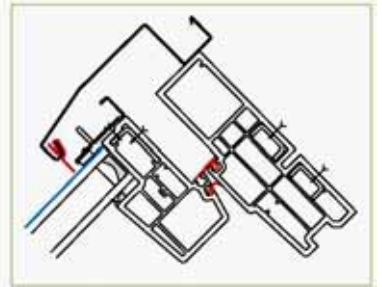

## Technical Information

More light makes more of your home

- PVC framework with steel core, for extreme durability and long, maintenance-free life.
- Excellent energy coefficient: frame  $U = 1.4 \text{ W/m}^2\text{K}$  (TUV approved); glass  $U = 1.1 \text{ W/m}^2\text{K}$ : double glazing (4-16-4)
- High insulation factor, thanks to multiple chambers (see vertical cross section below)
- Long warranty: 20 years on the glass and 10 years on the frame
- High-quality Saint-Gobain glazing elements
- Optional self-cleaning **Bioclean®** glass

The outer surface of the pivoting window can be turned to the inside for cleaning. The handle is located on the bottom part of the window so that it is always easy to reach.

### Roof pitched

The size of the roof window selected depends on the pitch of the roof. It is recommended to opt for a larger roof window if the roof pitch is shallow.

## Choice of flashing supplied with the roof window

### Bioclean®...Self-cleaning glass

The roof windows are easy to clean, but for maximum convenience they are optionally available with self-cleaning **Bioclean®** Saint-Gobain glass. **Bioclean®** glass is finished with a special layer that degrades organic deposits so that it is automatically rinsed clean by the next shower of rain.

### Waterproof, breathing under-felt collars

The under-felt collars are manufactured from the highest quality air permeable roof membrane. They ensure an effective watertight installation and also help to prevent energy loss.

### Roller blinds

The optional roller blinds are a practical and attractive way of controlling internal light levels. Sized to match the window(s) selected, the blinds are supplied with an elegant aluminium frame. Colours choice is either Grey or Beige.
