June 2011

24/7 INTERNET SERVICE PLUS SALES AND TECHNICAL SUPPORT VIA EMAIL AND TELEPHONE – CLICK ON [contact us](#) TAB

You can make purchases from the [nationwide build shop](#) at any time using your Credit /Debit card. Sales and Technical support staff are on hand to answer any queries you may have via email or telephone from 9am to 5pm, Monday to Friday, excluding Public Holidays.

## DELIVERY CHARGES

As goods supplied by [nbs](#) are sourced from many manufacturers and delivered thorough out the UK, the delivery charges given in the nbs on-line shops can be dependant on the total value of goods ordered and the delivery location. For example delivery to islands may have higher charges than indicated. In such cases we will re-calculate and quote you via email before we process your order. Refer to nbs Conditions for further information. For some products, Sheeps Wool Insulation for example, delivery charges are always calculated on a project by project basis after you have placed the order with us and after providing your Credit/Debit card details. In these instances, please ensure you order all the goods for the project at any one time. According to the total quantities ordered and the delivery location we will confirm, via follow-up email, the most cost effective delivery method. The carriage charge may be waived for large orders.

YOUR CREDIT/DEBIT CARD (SEE [HOW TO ORDER](#)) WILL NOT BE DEDUCTED TO THE NATIONWIDE BUILD SHOP UNTIL YOU HAVE AGREED TO ANY QUOTED DELIVERY CHARGE FOR THE GOODS BY RETURN EMAIL. VAT WILL BE ADDED AT THE CURRENT RATE OF 20.0% TO ALL PRICES.

A goods price and sometimes a processing/delivery charge indicator is given in the tables below. Please note, the delivery charges shown may vary considerably as the delivery location can have a major influence on the final charge. Some products listed on this notice board may become unavailable from time to time. However, the product lists in the actual nbs on-line shops where you make your purchases are always up –to-date.

## The following is offered in nbs-natural insulation

Please note, the primary products offered in the nbs-natural insulation on-line shop are made from natural fibres – wool, hemp or wood from sustainable sources. These natural materials may have been treated to make them rot proof, fire resistant and insect repellent. Some of the insulation systems offered also include materials that are not naturally occurring but are necessary to make the insulation function at its designed efficiency. For more information please contact nbs Technical Support.

Product	Description and service price indicator
